

Interagency Aviation TRAINING BULLETIN

No. IATNG 14-01

Date: December 6, 2013

SUBJECT: A-100 Basic Aviation Safety Course

In a collaborative effort, OAS Training Division worked with subject matter experts from DOI bureaus and the USFS to update and consolidate the existing B3 curriculum into one course: A-100 Basic Aviation Safety. The new course has been available for use for “bricks and mortar” delivery and is now available online.

The course replaces five older courses –
A-101 Aviation Safety
A-105 Aviation Life Support Equipment (ALSE)
A-106 Aviation Mishap Reporting
A-108 Preflight Checklist & Briefing/Debriefing
A-113 Crash Survival

DOI and USFS personnel who are required to take the B3 curriculum will now be required to take the A-100 Basic Aviation Safety course in order to maintain their qualifications. The next revision of the OPM-04 and the Interagency Aviation Training Guide will reflect these changes.

Personnel who previously completed the B3 curriculum will maintain currency in accordance with existing policy requirements. They are not required to take the A-100 prior to the date their B3 recurrence would be due. However, users are encouraged to take it sooner if able.

Bureau and agency aviation training instructors are encouraged to immediately begin using the new course materials and discontinue the use of the older modules. As of January 1, 2014, credit will no longer be given for the older modules. Instructors may request course materials by sending an email to iat_admin@ios.doi.gov.
