

## S Course Equivalency for IAT Modules

This matrix shows the approved one-way course equivalents (E) for the IAT modules. It is recognized that personnel may receive aviation-related training from sources other than that found in the IAT curriculum. It is the goal of the IAT system to diminish redundancy and promote effective and efficient training. Supervisors should review the following list of DOI and USFS approved course equivalents when assessing the training needs of their employees. Outside- course curriculum can be used to satisfy the requirements of the IAT Guide. It is incumbent upon the supervisor and the employee to ensure that training records are maintained that support completion of equivalency courses in place of the IAT curriculum. **One-Way S to A Course**
